1	Home Page: video for Boat Shipping International is incorrect. The Read more link needs to link to the advertisement page of the showcased business. Presently it goes to YouTube. Also...I have yet to see where the videos are to be uploaded as different videos for all of the static pages. Should have 3 different videos to be uploaded for each static page. Currently...same 3 videos for all.	7-Feb-14	Done	If you go to admin, you can change the URL for read more button from field " Read more link: " Link: http://server.ashoresystems.com/~wom/admin/manage_footer_videos Click on edit and you can change URL		DONE
2	About Us: want to ensure the photo on this page can be replaced. When I pull photo dimensions there are none. That needs to be completed so when I replace the photo it	7-Feb-14		Use image link option to upload the image.		
3	How It Works: videos on this page will need to be replaced and I'd prefer them not be YouTube uploads. Needs to be stationary videos for this site only.	7-Feb-14	Done	For now it might misalign in Ipad. Will solve in next update		
4	Services: Step1- Create Username needs to direct the user to use their email address. We can leave the Email Address box, just add Business Contact in front of email address. ("Business Contact Email Address") Step2- where does this go once submitted? Reverts back to Step2 page. Shouldn't it revert to their business advertisement to show the uploads and the ad. They should already be logged in...so if they want to edit that advertisement, how are they directed to their admin side to do so? Shouldn't their be an edit button on their ad only visible to them, so if changes need to be made they can access that area? If not...explain that process as to how you built it.	7-Feb-14	Done	1. User can login by using "username" or "email". 2. Currently we show business contact email id taken from step 2 as step 2 holds business info. 3. Step2- where does this go once submitted? - Once submitted user will redirect to view his/er uploaded ad that on dashboard page where s/he will have edit button there. 4. Advertisement page is mainly for other users and business user can manage business and ad details from dashboard. 5. To go to dashboard user can click on username beside logout button	Step 1) Email name change- Done	
5	Admin: Manage Listings * Can't upload but one picture from here. * Description only allows 255 words, however doesn't alert until user submits. The user then has to guesstimate how many there are while deleting and resubmit. This is not user friendly. There should be an alert under the text box letting the user know of the 255 word cap and also there should be a letter counter so the user can see when they are	7-Feb-14	Done	Please try image uploading below 3 MB with jpeg, png format	Yet to test	
6		7-Feb-14	Done			DONE

7	*** I uploaded "The View" under Beauty category #50. The logo photo and other photos did not upload. There is a photo in the logo place, however not one that I uploaded. None of the photos that should show in the media section of the ad uploaded at all.	7-Feb-14	Done	Added new business "New Test Business" and image upload is working, can you please send us the images you tried to upload? so we can check for its properties. Please try image uploading below 3 MB with jpeg, png format	Yet to test
8	: Manage Jobs: received Error #1064	7-Feb-14	Done		DONE
9	: Manage Deals: received Error #1064	7-Feb-14	Done		DONE
10	: Manage Reviews: okay, however the business name should link you to the business advertisement page.	7-Feb-14	Done		DONE
11	: Manage Claims: when they are approved and the status changes, what happens? Is the user notified by email that their account has been approved and in that email a link to their sign up page is provided?	7-Feb-14	Done	1. Admin can confirm the business is owned by right person before listed on website 2. Yes, email will be sent to user and user can click on link and will come to registration page to own the business	
12	Manage Listing: spelling errors on this page, also the businesses listed under business name should link to the businesses advertisement page.	7-Feb-14	Done		DONE
13	Advertisement Page: the way the address is displayed looks bad. We do not need Address:..... Or Phone:..... The comas are to close to the text and we do not need USA in the address at all. I feel the address should be centered under the logo picture. For Phone: please just use (p). For We will need to fill this site with meta tag words and SEO etc. I need to be able to fill photos and pages...is this possible as built. I know on About Us, I can, but what about the other Static Pages?	7-Feb-14	Done	There are commas in dummy data that will be removed once we flush the db I would suggest we should do this once we move files to live because as we add more information google starts crawling on test server.	Done 1) Fax is not present.
