

Sr. No.	Task	Date	Status	Avion comment
1	– The pictures attached to the categories are wrong. I have sent the file with the paid for pictures to be attached to these categories multiple times over the life of this project.	Jan-3-2014	Done	
2	– Have requested the link button take the user to the Services Page, multiple times.	Jan-3-2014	Done	Already there is a link on button, please point if still doesn't find
3	– Video still overlaps text here.	Jan-3-2014	Done	
4	– The issue with the sign Up on the Services Page not going to Step 2 has been resolved, thank you....however when I click on the Terms and want to read them I'm sent back to the Services Page. I am not directed to the Terms Agreement that I also provided a good while ago.	Jan-3-2014	Done	
5	– Premium Package...there is no max to the number of business categories.	Jan-3-2014	Done	
6	– Note... "Click to receive monthly deals & specials"it should be " Click to submit monthly deals & specials". Also....we have the "Click to receive competitive quotes", however I've not seen the ad page that shows this link. This is only Premium Package holders but there is suppose to be a button to allow a user to click sending the business a email asking for a quote. (See photo below)	Jan-3-2014	Done	
7	-Videos sent are still not uploaded here...I sent two.	Jan-3-2014	Done	Video needs to be uploaded for all browsers
8	– need to ensure text can be corrected on our end...there is a pretty important issue that needs to be fixed in text above.	Jan-3-2014		Login to admin to change content "Site content > Manage FAQ" http://server.ashoresystems.com/~wom/admin/manage_faq
9	– still having an overlap issue here, it appears.	Jan-3-2014	Done	
10	– If this were a Premium Package holder...there should be a button that directs to the business supplied email asking for a quote.	Jan-3-2014	Done	
11	I'll be having a favicon available for our business users to place on their websites to link to their advertisement page on WOM. How will the address pages be linked? By account number? Business name? Example: www.wordofmouthreferral.com/business account number? Or name? I'd prefer the link be done or business found by their account number.	Jan-6-2015		The link for business will be: www.wordofmouthreferral.com/home/business_list/ 16
12	2.) on About Us page, I see that you've linked the button in the text to the a Services Page, thanks, however could you please have the text done in English letting the user know what the button is for?	Jan-6-2016	Done	Please let us know what will be button name in english
13	3.) I still see mis aligning issues, or back feed showing on the page below. https://aviontechnology.basecampHQ.com/projects/10993174/file/174281775/image.png	Jan-6-2017	Done	
14	Advanced Search issue: no list of states https://aviontechnology.basecampHQ.com/projects/10993174/file/174282478/image.png	Jan-6-2018	Done	
15	Testimonials excerpts on Home Page: (see picture below) Where is this information submitted? My staff needs to be able to change this info. Where is this done from?	Jan-6-2019	Done	

16	888 number at bottom of the page is incorrect. Has yet to be changed to match the number at the top of the page. https://aviontechnology.basecampHQ.com/projects/10993174/file/174283058/image.png	Jan-6-2020	Done	
17	Contact number is incorrect on Contact Us Page: Correct phone number: 1-800-363-5791 https://aviontechnology.basecampHQ.com/projects/10993174/file/174283570/image.png	Jan-6-2021	Done	
19	The categories should look the same from page to page. Notice the difference of views between two pages. https://aviontechnology.basecampHQ.com/projects/10993174/file/174283981/image.png https://aviontechnology.basecampHQ.com/projects/10993174/file/174283982/image.png	Jan-6-2023	Done	
20	Please add an "other" category where a user can input their category. These categories are not diverse enough.	Jan-7-2024	Done	
21	Required Fields: 1) Name (please allow to place full business name) (see error message in photo above) 2.) address, phone, email...fax is optional as are the other fields not associated with payment.	Jan-7-2024	Done	
21	I attempted to upload photos and pick business categories and it does not work. Once a category is chosen...it should be visible to the user. Also the Basic package allows 2 categories...should be able to pick multiples and see them. Same with the photo and logo uploads....this is not completed and function able.	Jan-7-2024	Done	One logo can uploaded by user as we can show only onw logo on the ad page. Multiple images can be uploaded by business user.
21	Please go through the payment process to ensure the package chosen shows the actual cost. When I was working with it, it showed \$0.00. When the user enters the promo code, I want it to show the actual cost minus the deduction from the promo code in real time.	Jan-7-2024	Done	
22	Home Page: video for Boat Shipping International is incorrect. The Read more link needs to link to the advertisement page of the showcased business. Presently it goes to YouTube. Also...I have yet to see where the videos are to be uploaded as different videos for all of the static pages. Should have 3 different videos to be uploaded for each static page. Currently...same 3 videos for all.	7-Feb-14	Done	If you go to admin, you can change the URL for read more button from field " Read more link: " Link: http://server.ashoresystems.com/~wom/admin/man age_footer_videos Click on edit and you can change URL
23	About Us: want to ensure the photo on this page can be replaced. When I pull photo dimensions there are none. That needs to be completed so when I replace the photo it doesn't affect the text.	7-Feb-14		Use image link option to upload the image.
24	How It Works: videos on this page will need to be replaced and I'd prefer them not be YouTube uploads. Needs to be stationary videos for this site only.	7-Feb-14	Done	For now it might misalign in Ipad. Will solve in next update

25	<p>Services: Step1- Create Username needs to direct the user to use their email address. We can leave the Email Address box, just add Business Contact in front of email address. ("Business Contact Email Address")</p> <p>Step2- where does this go once submitted? Reverts back to Step2 page. Shouldn't it revert to their business advertisement to show the uploads and the ad. They should already be logged in...so if they want to edit that advertisement, how are they directed to their admin side to do so? Shouldn't their be an edit button on their ad only visible to them, so if changes need to be made they can access that area? If not...explain that process as to how you built it.</p>	7-Feb-14	Done	<p>1. User can login by using "username" or "email".</p> <p>2. Currently we show business contact email id taken from step 2 as step 2 holds business info.</p> <p>3. Step2- where does this go once submitted? - Once submitted user will redirect to view his/her uploaded ad that on dashboard page where s/he will have edit button there.</p> <p>4. Advertisement page is mainly for other users and business user can manage business and ad details from dashboard.</p> <p>5. To go to dashboard user can click on username beside logout button</p>
26	Admin: Manage Listings	7-Feb-14		
27	* Can't upload but one picture from here.	7-Feb-14	Done	Please try image uploading below 3 MB with jpeg, png format
28	* Description only allows 255 words, however doesn't alert until user submits. The user then has to guesstimate how many there are while deleting and resubmit. This is not user friendly. There should be an alert under the text box letting the user know of the 255 word cap and also there should be a letter counter so the user can see when they are close.	7-Feb-14	Done	
29	*** I uploaded "The View" under Beauty category #50. The logo photo and other photos did not upload. There is a photo in the logo place, however not one that I uploaded. None of the photos that should show in the media section of the ad uploaded at all.	7-Feb-14	Done	Added new business "New Test Business" and image upload is working, can you please send us the images you tried to upload? so we can check for its properties. Please try image uploading below 3 MB with jpeg, png format
30	: Manage Jobs: received Error #1064	7-Feb-14	Done	
31	: Manage Deals: received Error #1064	7-Feb-14	Done	
32	: Manage Reviews: okay, however the business name should link you to the business advertisement page.	7-Feb-14	Done	
33	: Manage Claims: when they are approved and the status changes, what happens? Is the user notified by email that their account has been approved and in that email a link to their sign up page is provided?	7-Feb-14	Done	<p>1. Admin can confirm the business is owned by right person before listed on website</p> <p>2. Yes, email will be sent to user and user can click on link and will come to registration page to own the business</p>
34	Manage Listing: spelling errors on this page, also the businesses listed under business name should link to the businesses advertisement page.	7-Feb-14	Done	
35	Advertisement Page: the way the address is displayed looks bad. We do not need Address:..... Or Phone:..... The comas are to close to the text and we do not need USA in the address at all. I feel the address should be centered under the logo picture. For Phone: please just use (p). For Fax: please use (f).	7-Feb-14	Done	There are commas in dummy data that will be removed once we flush the db
36	We will need to fill this site with meta tag words and SEO etc. I need to be able to fill photos and pages...is this possible as built. I know on About Us, I can, but what about the other Static Pages?	7-Feb-14		I would suggest we should do this once we move files to live because as we add more information google starts crawling on test server.

37	Social media login - Page added to collect email id and password if email id not provided by social media	12-Feb-14	Done	
38	Login with pinterest icon removed as pinterest doesn't provide sign up API	12-Feb-14	Done	
39	The videos in the footer...the date that's visible to show when an update has taken place can be removed. It doesn't seem to work properly and is actually not necessary to anything really.	13-Feb-14	Done	
40	I uploaded a mp4 video to How it Works page. While uploading there is no way to know if it's uploading. I'd like to see a % left to upload, including a estimated time. Once uploaded it needs to alert the user that it has been uploaded. When I went to check the upload...I did not happen. Was not on the How it Works Page.	13-Feb-14	Done	
41	On Services Page...during the sign up page the input text is too light. Please darken for easier viewing.	13-Feb-14	Done	
42	<p>There should be a video upload for Premium Package holders. They are allowed 2 videos. It is not there. Also ensure type of excepted video etc. is noted before upload.</p> <p>** There is no drop don for "State" on Step 2. Set up as a write I and does not match the other drop downs.</p> <p>** Phone field is a MUST...Step 2</p> <p>** After submitting...it takes you no where. Again, there should be a pop-up that lets the user know the submission was completed and a link to take them to their advertisement page.</p>	13-Feb-14		<p>Dropdown added</p> <p>After submitting the ad, we are taking user to the dashboard with just added ads list and we cannot redirect to ad page since ad should be approved by admin. Also business owner can click on business name to see the ad submitted.</p>
43	I created a WOM ad page with logo, and picture uploads in all categories. When I check it's existence...it's not there.	13-Feb-14		Yes correct, for that you need to activate this ad from admin manage listing section and then ad should come under category
44	<p>Advance Search: Typed Test Automotive....Told me No Providers Found. This was taken from a visible ad inputted from you. This tells me the advance search capabilities is not up to par.</p> <p>** I typed the zip-code 10001 and it pulled up businesses with the zip-code 10001 but also 10013, 10021, and 10003. This tells me this has some bugs to.</p>	13-Feb-14		<p>When you typed word " Test Automotive" there was a space (might be it was copy and paste which takes space alogn), "Test Automotive" search is working.</p> <p>About zip code result when user performs search we show exact match of zip code plus zip codes comes in 50 miles radius.</p>
45	Also... I'm attaching a picture of how info is viewed on STEP 2 sign up. Esthetically...please correct.	13-Feb-14	Done	
46	You had asked that I send you the photo for the favicon...did you do anything with that?	13-Feb-14	Done	
47	The bones of this site will host businesses in every state in the USA. At some point we will want to tailor the footer videos to each state. Will we need to own a separate web address for each state to duplicate the static pages however add a tag for the targeted state so that we can have footer video targeted to that state?	13-Feb-14		I think we can work on this later once we done with all the points, since it is new point and need to check for feasibility
